

RAPID Release Note 4.6 - customers

1. [\[DEV-1029\]](#) – INPADOC: As a user, when receiving an INPADOC alert notification, you now are informed to which database/customer inside RAPID this alert belongs. This simplifies the handling of the alerts for big customers working with several databases/customers.
2. [\[DEV-1411\]](#) – PATFINDER: The Patfinder database inside RAPID containing all the +90 Mio patents from the European Patent Office has been updated. It allows you to search and import patents into RAPID without having to use an external source.
3. [\[DEV-1431\]](#) – RATINGS: As a user, you are now able to attach more than one rating in a group of ratings. This allows different people to work on the same group of ratings simultaneously.
4. [\[DEV-1038\]](#) – ERGONOMY: As a user, you now can know easily if any type of document has an attached file or not
5. [\[DEV-1125\]](#) – ERGONOMY: The category tree now remains open after applying the filters.
6. [\[DEV-1481\]](#) – ERGONOMY: The performance of the “Most Read Documents” widget in the dashboard has been improved.
7. [\[DEV-1484\]](#) – ERGONOMY: All the dropdown arrows in Filters are now the same in all supported browsers.
8. [\[DEV-1107\]](#) – FUNCTIONALITY: As a User, you now can see the abstract for all documents of the members of a patent family.
9. [\[DEV-1487\]](#) – FUNCTIONALITY: When using the Add patent to My Collection function, the documents are now displayed in the My Collection view and not in the Searches and Alerts view.
10. [\[DEV-1420\]](#) – FUNCTIONALITY: As a user, in the family tab of a patent, you now have direct access to the link on the European registry.
11. [\[DEV-943\]](#) – ERGONOMY: As a user, you now have the possibility to open the mosaic, the claims, the description of a patent all at once.
